FOREWORD

The Government of Kenya (GoK) is committed to ensuring that policy objectives for Education, Training and Research meet the aspirations of the Kenya Constitution 2010, the Kenya Vision 2030, National Curriculum Policy 2019, the United Nations Sustainable Development Goals (SDGs) and the Regional and Global conventions to which Kenya is a signatory.

Towards achieving the mission of Basic Education, the Ministry of Education (MoE) embarked on a reform process that culminated in the adoption of a Competency Based Education (CBE) system in 2017. This came after extensive research, stakeholder engagement international benchmarking and consideration of the 21st Century socio-economic realities. CBE in Kenya adopted a 2-6-3-3 structure where the numbers indicate the years learners take at various levels in Basic Education (Pre-Primary, Primary, Junior School and Senior School; respectively). CBE has for critical elements: The Competency Based Curriculum (CBC), Pedagogy (teaching and learning), Resources and the Competency Based Assessment. The MoE oversees the provision of resources while the other components (Curriculum, Pedagogy and Assessment are handled by the Kenya Institute of Curriculum Development, (KICD), Teachers Service Commission, (TSC) and the Kenya National Examinations Council (KNEC); respectively.

KICD has successfully developed curriculum designs that have been used in the implementation of the Competency Based Curriculum (CBC) for the Pre-Primary, Primary and Juniors School levels. The first cohort of learners pursuing the CBC will transit to Senior School (Grades 10-12) in 2026. The curriculum designs at this level are expected to facilitate learners to acquire relevant knowledge, skills, values and attitudes (competencies) in preparation for tertiary education and the world of work. I urge all agencies of the GoK and other stakeholders in Education to use the designs to plan for effective and efficient implementation of Competency Based Education.

MR. JULIUS MIGOS OGAMBA
CABINET SECRETARY,
MINISTRY OF EDUCATION

DRAFT

PREFACE

The Ministry of Education (MoE) through the State Department for Basic Education, has been implementing the Competency Based Education (CBE) since the adoption of the *Basic Education Curriculum Framework* (KICD, 2017) during the national convention in January 2017. The Kenya Institute of Curriculum Development (KICD) developed Competency Based Curriculum (CBC) designs that were used for pilot studies in 2017 and 2018 before the roll-out at Pre-Primary and Primary Early Year (Grades 1 to 3 in 2019. The curriculum was then introduced in the subsequent grades through *a phase in –phase out* strategy, to ensure a smooth transition. Currently, the first cohort of CBC learners are at Grade 9 – the last grade at Junior School. The implementation of CBE has since benefited immensely from the recommendations of the *Presidential Working Party on Education Reforms* (PWPER) that were released in August, 2023 and fully implemented, in terms of curriculum designs.

Grade 10 is the entry class of the Senior School (SS) in Basic Education, a very critical level where learners shall have the opportunity to focus on pathways, tracks and subjects of their choices guided by the potentials demonstrated at earlier levels. The Senior School shall; therefore, form a foundation for further education and training and/or initial competencies for the Industry. This is an important step in the realisation of the Vision and Mission of the curriculum reforms as enshrined in the Sessional Paper No. I of 2019 whose title is: *Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development* in Kenya.

The Grade 10 curriculum designs, like the designs for earlier levels, are anchored on the Kenyan National Goals of Education. They also present essence statements, general and specific expected learning outcomes as well as strands and sub strands for the learning areas. The designs also outline suggested learning experiences, key inquiry questions, core competencies, Pertinent and Contemporary Issues (PCIs), values and suggested assessment.

The Ministry of Education, through the State Department for Basic Education commits to provide resources and relevant guidelines for a smooth implementation of the CBC. It is expected that the designs will guide teachers to effectively facilitate learners to attain the expected learning outcomes for Grade 10 specifically and Senior School in general.

AMB. PROF. JULIUS BITOK, MBS
PRINCIPAL SECRETARY
STATE DEPARTMENT FOR BASIC EDUCATION
MINISTRY OF EDUCATION

DRAFT

ACKNOWLEDGEMENT

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2019) mandates the Institute to develop curricula, programmes and curriculum support materials for Basic and Tertiary Education and Training. The curriculum development process involves research, international benchmarking and robust stakeholder engagement. Through a systematic and consultative process, the KICD conceptualised the Competency Based Curriculum (CBC) as captured in the *Basic Education Curriculum Framework* (KICD,2017), that responds to the demands of the 21st Century, the United Nations Sustainable Development Goals (SDGs). African Agenda 2063, East African Community Protocol and the aspirations captured in the Kenya Constitution 2010 and the Kenya Vision 2030.

KICD receives its funding from the GoK to enable the successful achievement of the stipulated mandate and implementation of the Government and Education sector plans. The Institute also receives support from development partners targeting specific programmes. The Grade 10 curriculum designs were developed with the support of the World Bank and GoK through the *Kenya Primary Education Equity in Learning Programme* (KPEELP); a project coordinated by the MoE. Therefore, the Institute is very grateful to the GoK, through the MoE and the development partners (especially The World Bank) for support in terms of policy guidance, resource provision and capacity building. Specifically, I wish to express special thanks to the Cabinet Secretary-MoE and the Principal Secretary-State Department for Basic Education.

We also wish to acknowledge the KICD curriculum development officers and other staff, all teachers, educators who took part as panellists; the institutions that participated and representatives of various stakeholders for their roles in the development of the Grade 10 curriculum designs. In relation to this, we acknowledge the support of the Chief Executive Officers of the Teachers Service Commission (TSC), the Kenya National Examinations Council (KNEC) and other agencies in the sector for their support in the process of developing these designs.

Finally, we are very grateful to the KICD Council Chairperson and other members of the Council for consistent guidance and oversight. We assure all teachers, parents and other stakeholders that these curriculum designs will effectively guide the implementation of the CBE at Grade 10 and preparation of learners for transition to further education and training or the world of work.

PROF. CHARLES O. ONG'ONDO, PhD, MBS.
DIRECTOR/CHIEF EXECUTIVE OFFICER

NATIONAL GOALS OF EDUCATION

Education in Kenya should:

1. **Foster nationalism and patriotism and promote national unity.**
   Kenya's people belong to different communities, races and religions, but these differences need not divide them. They must be able to live and interact as Kenyans. It is a paramount duty of education to help young people acquire this sense of nationhood by resolving conflicts and promoting positive attitudes of mutual respect which enable them to live together in harmony and foster patriotism in order to make a positive contribution to the life of the nation.

2. **Promote the social, economic, technological and industrial needs for national development.**
   Education should prepare the youth of the country to play an effective and productive role in the life of the nation.
   a) **Social Needs**
      Education in Kenya must prepare children for changes in attitudes and relationships which are necessary for the smooth progress of a rapidly developing modern economy. There is bound to be a silent social revolution following in the wake of rapid modernization. Education should assist our youth to adapt to this change.
   b) **Economic Needs**
      Education in Kenya should produce citizens with the skills, knowledge, expertise and personal qualities that are required to support a growing economy. Kenya is building up a modern and independent economy which is in need of an adequate and relevant domestic workforce.
   c) **Technological and Industrial Needs**
      Education in Kenya should provide learners with the necessary skills and attitudes for industrial development. Kenya recognizes the rapid industrial and technological changes taking place, especially in the developed world. We can only be part of this development if our education system is deliberately focused on the knowledge, skills and attitudes that will prepare our young people for these changing global trends.

3. **Promote individual development and self-fulfilment**
   Education should provide opportunities for the fullest development of individual talents and personality. It should help children to develop their potential interests and abilities. A vital aspect of individual development is the building of character.

DRAFT

4. **Promote sound moral and religious values.**
   Education should provide for the development of knowledge, skills and attitudes that will enhance the acquisition of sound moral values and help children to grow up into self-disciplined, self-reliant and integrated citizens.

5. **Promote social equity and responsibility.**
   Education should promote social equity and foster a sense of social responsibility within an education system which provides equal educational opportunities for all. It should give all children varied and challenging opportunities for collective activities and corporate social service irrespective of gender, ability or geographical environment.

6. **Promote respect for and development of Kenya's rich and varied cultures.**
   Education should instill in the youth of Kenya an understanding of past and present cultures and their valid place in contemporary society. Children should be able to blend the best of traditional values with the changing requirements that must follow rapid development in order to build a stable and modern society.

7. **Promote international consciousness and foster positive attitudes towards other nations.**
   Kenya is part of the international community. It is part of the complicated and interdependent network of peoples and nations. Education should therefore lead the youth of the country to accept membership of this international community with all the obligations and responsibilities, rights and benefits that this membership entails.

8. **Promote positive attitudes towards good health and environmental protection.**
   Education should inculcate in young people the value of good health in order for them to avoid indulging in activities that will lead to physical or mental ill health. It should foster positive attitudes towards environmental development and conservation. It should lead the youth of Kenya to appreciate the need for a healthy environment.

DRAFT

THE SENIOR SCHOOL IN THE COMPETENCY BASED CURRICULUM

Senior School is the fourth level of Basic Education in the Competency Based Curriculum (CBC) that learners shall proceed to after the Pre-Primary School, Primary School and Junior School levels. The essence of Senior School is to offer learners a pre-tertiary/university/ pre-career experience in which the learners have an opportunity to choose pathways, tracks and subjects where they shall have demonstrated interest and/or potential at the earlier levels. Senior School comprises three years of education for learners generally in the 16-18 years age bracket and lays the foundation for further education and training at the tertiary level and the world of work. In the CBC vision, learners exiting this level are expected to be ***engaged, empowered and ethical citizens*** ready to participate in the socio-economic development of the nation.

At this level, learners shall take seven (7) learning areas as recommended by the *Presidential Working Party on Educational Reforms* (PWPER, 2023). These shall comprise **four compulsory learning areas** namely: English, Kiswahili, Essential Mathematics/Core Mathematics and Community Service Learning (CSL). Learners will choose between Core Mathematics (for learners pursuing the Science Technology Engineering and Mathematics Pathway) and Essential Mathematics (for learners pursuing the non-STEM pathways). The learner will select three learning areas depending on their career choice, aptitude, interest and personality with guidance by the career teacher at Senior School.

LEARNING OUTCOMES FOR SENIOR SCHOOL

By the end of Senior School, the learner should be able to:

1. Communicate effectively and utilise information and communication technology across varied contexts.
2. Apply mathematical, logical and critical thinking skills for problem solving.
3. Apply basic research and scientific skills to manipulate the environment and solve problems.
4. Exploit individual talents for leisure, self-fulfilment, career growth, further education and training.
5. Uphold national, moral and religious values and apply them in day-to-day life.
6. Apply and promote health care strategies in day-to-day life.
7. Protect, preserve and improve the environment for sustainability.
8. Demonstrate active local and global citizenship for harmonious co-existence.
9. Demonstrate appreciation of diversity in people and cultures.
10. Manage pertinent and contemporary issues responsibly.

DRAFT

LIST OF SUBJECTS AT SENIOR SCHOOL

Core Subjects	Arts & Sports Science	Social Sciences	Science, Technology, Engineering & Mathematics (STEM)
1. English 2. Kiswahili/KSL 3. Core Mathematics/ Essential Mathematics 4. Community Service Learning (CSL)	5. Sports and Recreation 6. Music and Dance 7. Theatre and Film 8. Fine Arts	9. Literature in English 10. Indigenous Languages 11. Fasihi ya Kiswahili 12. Sign Language 13. Arabic 14. French 15. German 16. Mandarin Chinese 17. Christian Religious Education 18. Islamic Religious Education 19. Hindu Religious Education 20. Business Studies 21. History and Citizenship 22. Geography	23. Biology 24. Chemistry 25. Physics 26. General Science 27. Agriculture 28. Computer Studies 29. Home Science 30. Aviation 31. Building Construction 32. Electricity 33. Metalwork 34. Power Mechanics 35. Wood Technology 36. Media Technology 37. Marine and Fisheries Technology

Note:

a) Physical Education (PE) and Information Communication and Technology (ICT) will be offered to all learners to facilitate learning, enjoyment and acquisition of life skills.

b) Every school shall offer Pastoral/Religious Programme of Instruction (P/RPI) to enhance moral, spiritual and character development of the learners.

c) There shall be One lesson for personal or group study to deepen knowledge and enhance skills in areas of choice by the learners.

Table 2 below provides guidelines on distribution of lessons at Senior School.

ESSENCE STATEMENT

Fine Arts is a creative subject focused on the expression of ideas, emotions, and imagination through various art techniques applied in both two-dimensional and three-dimensional artworks**.** These works are created primarily for their aesthetic, emotional impact, and for functional purposes. Learners entering this level bring foundational knowledge and skills gained from early exposure to various artistic activities and environments. This subject builds on that base, providing a seamless continuum of learning that promotes deeper creativity and cognitive development.

The learning process integrates both conventional and digital approaches**,** emphasizing hands-on techniques, in-depth research, and exploration of artistic traditions across different cultures. This broad exposure nurtures holistic, globally conscious learners who appreciate diverse artistic expressions, promote cultural preservation, and contribute meaningfully to modern society.

Aligned with global education trends, learners will leverage ICT tools for innovative experiences in digital art creation, enhancing both artistic production and digital literacy skills essential in today's creative industries. The subject lays a strong foundation for continued growth in art and academics and opens pathways to diverse careers including fine art, architecture, advertising, visual communication, industrial and product design, interior and fashion design, landscape design, graphic design, urban planning, photojournalism, medical illustration, animation, video production, curation, and art education**.**

DRAFT

SUBJECT GENERAL LEARNING OUTCOMES

By the end of senior secondary school, the learner should be able to;

1. Deepen visual perception through exploration of various artistic techniques in 2-Dimensional and 3-Dimensional artworks.
2. Enhance their creativity to apply artistic techniques to solve problems through observation, experimentation, and innovation.
3. Acquire research and analytical skills to document and critique artworks.
4. Explore a range of materials, techniques and tools to create functional and aesthetic artworks.
5. Explore and develop skills in ICT for design, production and presentation of fine artworks.
6. Apply creative and innovative skills to upcycle and recycle material from the environment to produce artwork.
7. Demonstrate understanding of the creative process in fine arts for portfolio development.
8. Discover career and entrepreneurial opportunities in the creative industry for economic empowerment.
9. Appreciate diverse indigenous Kenyan and African crafts for cultural preservation and heritage, and their relevance in contemporary practice.

DRAFT

SUMMARY OF STRANDS AND SUB STRANDS

No	Strand	Sub Strand
1.0	**Picture Making Techniques (2 D Art)**	**1.1** Drawing
		1.2 Painting
		1.3 Collage
2.0	**Multimedia Arts (2 D Art)**	**2.1** Graphic Design
		2.2 Fabric decoration: Tie and dye
		2.3 Fabric decoration: Batik
3.0	**Indigenous Crafts (3 D Art)**	**3.1** Pottery

		3.3 Macramé
		3.4 Jewellery and Ornamentation
		3.5 Art Appreciation

DRAFT

STRAND 1.0: PICTURE MAKING TECHNIQUES (2 D ART)

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Picture Making Techniques (2 D Art)	**1.1 Drawing** ● *Elements and principles of 2-dimensional Art* ● *linear perspective* ● *one point perspective drawing* ● *2 point perspective drawing* ● *still life composition* ● *portfolio folder*	By the end of the sub-strand the learner should be able to; a) analyse the elements and principles of 2-dimensional art in drawing, b) draw objects in one-point perspective, c) draw objects in two - point perspective d) compose a still life to apply the stages of drawing, e) make a portfolio folder for storage and presentation of artworks, f) value drawing as a technique in picture making.	Learner is guided to; ● study artworks in the virtual/ actual environment focusing on; - Elements: line; (contour/lines), shape, (overlapping), texture (tactile /simulated), value (tinting/shading), colour (hue, value, intensity) - Principles-balance, dominance, proportion, rhythm and movement, harmony/unity of 2-Dimensional Artwork, ● explore actual and safe virtual sources to visualize occurrence of linear perspective in objects and spaces such as urban streets among others with focus on one - point perspective,	1. How can perspective create an illusion of depth in a drawing? 2. Why is a portfolio important in the creative process of an artwork?

DRAFT

			• draw angular objects in one- point perspective with emphasis on: convergence lines, vanishing point and one-point perspective, • explore objects in actual or safe virtual sources to visualize occurrence of linear perspective with focus on two-point perspective, • draw angular objects and spaces such as urban streets with road safety features in two-point perspective with emphasis on: convergence lines, two vanishing points and viewpoints, • collectively, gather a variety of objects, set up a still life observing overlaps and sizes of objects, • draw a still life with focus on stages of drawing: *sketching, shading (smudge), adding details and refining,* • use recyclable materials to make a one-fold portfolio folder to store 2 dimensional artworks,	

DRAFT

			• present the drawings in the portfolio for critique and feedback.	

Core Competencies to be developed

- Communication and collaboration: as the learner teams with others to gather a variety of objects and sets up a still life
- Digital Literacy: as the learner uses digital devices to source and study online artworks.
- imaginations and Creativity: as the learner draws angular objects and spaces such as urban streets with road safety features in two-point perspective.

Values:

- Respect: as the learner appreciates others' opinions during critique.
- Unity: as the learner works harmoniously with others.

Pertinent and Contemporary Issues (PCIs)

- Child road safety- urban roads: as the learner explores safe actual and virtual sources to visualize occurrence of linear perspective in spaces such as urban streets as well as drawing urban streets with safety features in two-point perspective.
- Safety and Cyber security: as the learner observes cyber security while using online resources in exploring the actual and virtual environment.

Suggested Learning Resources: Internet connectivity, reference materials, drawing paper, drawing charcoal, pastel, pens, pencils, erasers, crayons among others.

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experience	Suggested Key Inquiry Question(s)
1.0: Picture Making Techniques (2 D Art)	**1.2 Painting** ● *wash technique (flat and graded)* ● *painting sceneries* ● *painting composition using brush-spraying technique on, environmental conservation among others*	By the end of the sub-strand the learner should be able to; a) describe wash techniques of painting, b) paint sceneries from observation using wash technique, c) describe brush-spraying techniques of painting d) create a pictorial composition using brush-spray painting technique, e) appreciate own and others' paintings.	Learner is guided to: ● search virtual and/or actual sources to study samples of paintings done using the wash techniques, ● experiment with flat washes and graded washes on paper using water colours, ● make a viewfinder using recycled paper, ● explore the environment and use the viewfinder to select sceneries for painting with focus on; foreground, middle ground, background and dominance. ● sketch the scenery for painting, ● paint the sceneries with emphasis on colour value to create atmospheric effect and depth, ● search virtual and/or actual sources to study samples of paintings done using brush-spraying techniques, with emphasis on the process of making stencils and painting,	1. Why is the wash technique most appropriate for painting sceneries? 2. How do flat and graded washes compare in terms of their application, challenges and outcomes?

DRAFT

			• design and cut stencils inspired by health promotion issues, • use the stencils, paints and brushes to produce a spray-painting composition, with emphasis on colour contrast/ harmony, balance and rhythm and movement, • finish by trimming and window mounting, • display and respectably critique of own and peers' paintings.	
Core Competencies to be developed • Digital Literacy: as the learner search virtual and/or actual sources to study samples of paintings done using the wash and brush-spraying techniques, • Learning to learn: as the learner explores a new technique of brush spray painting. • Self-efficacy: as the learner display and respectably critique of own and peers' paintings,				
Values: • Respect: as the learner accommodates others' opinions during the critique session. • Love: as the learner works peacefully and displays trustworthiness as they share resources.				
Pertinent and Contemporary Issues (PCIs) • Health promotion issues: as the learner designs and make a stencil inspired health promotion issues. • Life skills, Moral education and Human sexuality education: - Social awareness: as the learner communicates effectively in the critique of own and peers' paintings.				

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Picture Making Techniques (2D Art)	**1.3 Collage** ● *type of collage; single-media and mixed media collage* ● *characteristics: textural effect, 3-D effect, painterly effect, juxtaposition, superimposition.*	By the end of the sub-strand the learner should be able to; a) analyse the concept of collage technique, b) create a single media collage composition for self-expression, c) create a mixed-media collage composition for creativity, d) appraise own and peers' collage artworks.	Learner is guided to; ● explore and discuss virtual/actual collage artworks done by local and international artists with focus on; type of collage and characteristics, ● safely, collect and prepare recyclable materials with focus on; support, adhesive and type of materials, ● develop sketches to create a single media collage (paper), focusing on shapes, colour, texture, juxtaposition and superimposition. ● use the sketch to create mixed-media collage composition based on environmental conservation focusing on variation of tone, texture and 3-dimensional effect.	1. How can the choice of materials affect the durability of a collage? 2. How can collage technique be used as a tool for highlighting pertinent and contemporary issues?

DRAFT

			• use appropriate finishing techniques, *(trimming and mounting)* • present own collage work confidently and speaks clearly while giving feedback to peers' work.	

Core Competencies to be developed

- Communication: as the learner clearly speaks while giving feedback to peers' work.
- Citizenship: as the learner studies collage artworks done by local and international artists for mentorship.
- Self-efficacy: as the learner presents confidently own and others collage work for feedback.
- Digital literacy: as the learner explore virtual/actual sources to analyse collage artworks done by local and international artists.

Values:

- Respect: as the learner accommodates diverse opinions during the critique session.
- Responsibility: as the learner observes safety precautions, collect and prepare recyclable materials.

Pertinent and Contemporary Issues (PCIs)

Social economic and environmental issues: as the learner safely collects recyclable materials and prepares them to make collage.

DRAFT

Suggested Assessment Rubric for Strand 1.0: Picture Making Techniques (2 D Art)

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
Ability to analyze the 5 elements and 5 principles of two dimensional Art	Analyzes the 5 elements and 5 principles of two dimensional Art with examples.	Analyses the 5 elements and 5 principles of two dimensional Art	analyzes 3-4 elements and 3-4 principles of two dimensional Art	Analyzes 1 or 2 elements and 1 or 2 principles of two dimensional Art
Ability to -draw objects in two-point perspective. - *Convergence lines* - *Vanishing points* - *View points(worm's eye, bird's eye, eye level)*	Draws objects in two-point using the 3 aspects neatly and with precision.	Draws objects in two-point with the 3 aspects .	Draws objects in two-point with the 2 aspects	Draws objects in two-point with less than 2 aspects
Ability to apply the stages of drawing in executing a still life composition, - *sketching,* - *Shading,* - *Adding details and refining,*	Sets up, draws and shades a still life composition strikingly while applying all the stages of drawing,	Sets up, draws and shades a still life composition while applying all the 3 stages of drawing	Sets up, draws and shades a still life composition while applying 3 stages of drawing with minor mistakes	Sets up, draws and shades a still life composition while applying 2 stages of drawing but with major mistakes

DRAFT

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
Ability to make a portfolio folder for storage and presentation of artworks	Makes a portfolio folder for storage and presentation of artwork with precision.	Makes a portfolio folder for storage and presentation of artworks	Makes a portfolio folder for storage and presentation of artworks with slight inaccuracies.	Makes a portfolio folder for storage and presentation of artworks that has irregular sides
Ability to describe wash and brush-spraying techniques of painting.	Describes wash and brush-spraying techniques of painting elaborately	Describes wash and brush-spraying techniques of painting	Describes wash brush-spraying techniques of painting with minor errors	Describes either wash or brush-spraying techniques of painting with major errors
Ability to paint sceneries from observation using the wash technique to create atmospheric effect and depth. - *Flat wash* - *Graded wash*	Paints sceneries from observation, using the wash technique to elaborately create atmospheric effect and depth.	Paints sceneries from observation using the wash technique to create atmospheric effect and depth. .	Paints sceneries from observation using wash technique to create atmospheric effect and depth with minor errors	Paints sceneries from observation using undefined wash techniques and lacking depth.
Ability to create a pictorial composition using brush-spray painting technique. - *colour contrast/harmony*	Creates a pictorial composition using brush-spray painting technique	Creates a pictorial composition using brush-spray painting technique taking into account all the aspects.	Creates a pictorial composition using brush-spray painting technique taking into account 2 of the aspects.,	Create a pictorial composition using brush-spray painting technique taking into account 1 or none of the aspects.

DRAFT

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
- *balance* - *rhythm and movement,*				
Ability to analyse the concept of collage technique	Analyses the concept of collage techniques with examples elaborately.	Analyses the concept of collage technique	Analyses the concept of collage technique while missing out a few details	Analyse the concept of collage technique while missing out major details
Ability to create a paper collage composition based on a PCI theme exhibiting following features: - *shapes* - *colour* - *painterly effect* - *overlapping* - *superimposition.*	Creates a paper collage composition based on a PCI theme, exhibiting 5 features of collage making with intricate details.	Creates a paper collage composition based on a PCI theme, exhibiting the 5 features of collage making.	Creates a paper collage composition based on a PCI theme 3-4 features of collage making.:	Creates a paper collage composition based on a PCI theme, exhibiting less than 2 features of collage making.
Ability to create a multi-media collage composition based on a PCI theme with emphasis on: - *Texture* - *3-dimensional effec*t.	Creates a multi-media collage composition based on a PCI theme, creatively bringing out texture and 3-dimensional effect.	Creates a multi-media collage composition based on a PCI theme, clearly bringing out texture and 3-dimensional effect.	Creates a multi-media collage composition based on a PCI theme partially bringing out texture and 3-dimensional effect.	Creates a multi-media collage composition based on a PCI theme barely bringing out texture and 3-dimensional effect.

DRAFT

STRAND 2.0: MULTIMEDIA ARTS (2 D ART)

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Multimedia Arts (2D Art)	**2.1 Graphic Design** ● *Trademark* ● *An educational/ social/ /advertisement poster.*	By the end of the sub-strand the learner should be able to; a) describe components of graphics design for familiarity, b) design a trade mark using computer aided design, c) design a poster using line and wash illustrations, d) compose a poster using computer aided design, e) appraise own and others' trademarks and posters.	Learners are guided to; ● effectively research and share findings on elements of graphic design (illustrations, layout, colour, and lettering), ● use computer aided design to create a 2 colour trademark, ● observe actual or virtual samples of educational, social and advertisement posters, ● create a poster in freehand inspired by gender-based issues with emphasis on-line and wash illustrations, layout, colour and dominance, ● design a poster with a trade mark incorporated using computer aided design. ● store in an e portfolio/print for showcase, ● display and critique others' works while reflecting on own .	1. Why are graphic illustrations incorporated in a work of Art? 2. How does colour shape effective communication in poster design?

DRAFT

Core competencies to be developed ● Learning to learn**:** as the learner effectively researches on elements of graphic design ● Imagination and Creativity**:** as the learner designs a poster with a trade mark incorporated using computer aided design ● Digital literacy: as the learner manipulates digital tools to design letters and write words.
Values: ● Social justice: as the learner appreciates equity and fairness in relation to gender while creating a poster. ● Patriotism: as the learner write messages inspired by civic education. ● Love: as the learner shares findings on elements of graphic design with peers.
Pertinent and Contemporary Issues (PCIs) ● Financial literacy: as the learner conducts digital market research to appreciate posters and aspects of a trademark ● Health and promotional issues: as the learner creates a poster in freehand inspired by gender based issues.

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Multimedia Arts (2D Art)	**2.2 Graphic Design - Typography** ● *Calligraphy* ● *Block letters* ● *Graffiti letters*	By the end of the sub-strand the learner should be able to; a) analyse the concept of typography for familiarity, b) illustrate text in calligraphy for a seasonal card, c) write words in block letters for a signage, d) write short message using graffiti lettering style, e) appraise own and others' typography design	Learners are guided to; ● research and engagingly discuss the concept of typography, *(font/typeface, spacing, colou*r) ● use recyclable materials to improvise 2 calligraphy pens (flat and slanted tip), ● practise writing letters, numeral in calligraphy with focus on; *angle of writing, and stylisation of ascenders, body ,descenders*, ● write text maintaining the correct angle of the pen for a seasonal card in lower case, ● practise writing block letters (constructed and stencil aided), ● write brief messages using block letter on a signage inspired by civic responsibility,	1. Why should one use a slanted tip when improvising a calligraphy pen? 2. What influences artist choice of typographic style?

DRAFT

			• explore virtual and online environment to analyse graffiti lettering style such *matatu/street graffiti*), • creatively, use graffiti lettering using (free hand/ digital tools) to write messages on surfaces with focus on; *own style, painterly effect/colours)* • display and fairly critique others' works while reflecting on own illustrations.	

Core competencies to be developed

- Communication**:** as the learner engagingly discusses the discuss the concept of typography.
- Imagination and Creativity**:** as the learner generates new ideas when illustrating calligraphic text for the seasonal card
- Digital literacy: as the learner manipulates digital tools to design letters and write words.
- Critical thinking and problem solving: as the learner improvises calligraphy pens to write calligraphy
- Self-efficacy: as the learner displays, critiques others' works while reflecting on own graphic illustrations.

Values:

- Integrity: as the learner fairly critiques others' works.
- Patriotism: as the learner writes messages inspired by civic education.

Pertinent and Contemporary Issues (PCIs)

- Environmental conservation: as learner uses recyclable materials to make calligraphy pen.
- Citizenship Education: as the learner write brief messages using block letter on a signage inspired by civic responsibility.

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Multimedia Arts (2D Art)	**2.3 Fabric Decoration: Tie and Dye** ● *Tie and dye* ● *technique- (diamond and spiral effect)* ● *Materials (dyes, fabric).*	By the end of the sub-strand the learner should be able to; a) analyse the concept of tie and dyed in fabric decoration, b) tie and dye fabric to create diamond effect, c) tie and dye fabric to create spiral effects, d) appraise own and others' decorated fabrics.	The learner is guided to; ● research on tie and dye work inspired by Kenya/Nigeria/ Ghana/ Congo/ Namibia/Morocco among others while focusing on; concept, techniques and, materials and tools, ● actively, collaborate in sourcing and preparing the cotton fabrics enough for the methods, ● tie the fabric according to the technique (diamond and spiral methods), ● prepare the two dye baths according to manufacturer instructions while observing safety, ● dye the fabric in two colours for each method, ● explore more creative tying and	1. What is the cultural significance of tye and dye? 2. How do the different binding techniques affect the resultant patterns?

DRAFT

			• rinse, dry and iron the fabric to make a scarf/ table clothe while observing safety precautions, • collaboratively display and have peer assessment of the finished artworks	
Core competencies to be developed • Citizenship: as the learner researches on tie and dye concept with keen focus on west Africa, Europe/China. • Digital literacy: as the learner interacts with digital devices to search information on characteristics of fabrics decorated tie and dye techniques • Collaboration: as the learner actively collaborates in sourcing and cleaning used cotton fabrics				
Values: • Unity: as the learner cooperates with peers to collaboratively source and clean used cotton fabrics • Love: as the learner shows generosity by sharing materials for tie and dye Integrity: as the learner shows accountability while handling tools and materials used in fabric decoration (tie and dye)				
Pertinent and Contemporary Issues (PCIs) • Global citizenship: as the learner researches on tie and dye in Africa, China/Europe. • Social economic issues: Safety in the class as the learner prepares the dye bath for the tie and dye**.** • Health promotion issues: as learner sources, cleans, reuses and recycles cotton fabrics such as T-shirts, bedcovers				

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Multimedia Arts (2D Art)	**2.4 Fabric Decoration: Batik.** 2 colours ● Batik - *Concept* - *Crackled effect* - *textured effect* - *Materials and tools*	By the end of the sub-strand the learner should be able to: a) analyse the concept of batik in fabric decoration, b) batik fabric to create crackled and textured effect, c) appraise own and others' decorated fabrics.	The learner is guided to: ● use digital devices to search information on batik focusing on; concept (Indonesia/ Ghana/Nigeria /Senegal), techniques (crackled effect, textured effect) and materials and tools, ● actively collaborate in sourcing and preparing the cotton fabrics enough for the methods, ● safely prepare wax using recyclable paraffin and beeswax in ratios of 2:1, ● wax the fabric and let it cool to create a crackled and textured effect on each fabric, ● safely prepare a cold dye bath according to manufacturer instructions and dye the fabric, ● dewax the fabric by; rubbing/ironing/white spirit,	1. Why is it not possible to have definite shapes when tie and dyeing? 2. What visual effect is observed in a fabric made using batik technique?

DRAFT

			• display and have peer assessment of the finished artworks.	

Core competencies to be developed

- Digital literacy: as the learner interacts with digital devices to search information on characteristics of fabrics decorated by batik, tie and dye techniques
- Collaboration: as the learner actively collaborates in sourcing and cleaning used cotton fabrics
- Learning to learn: as the learner uses digital devices to search information on batik

Values:

- Unity: as the learner cooperates with peers to collaboratively source and clean used cotton fabrics
- Love: as the learner shows generosity by sharing materials for tie and dye and, batik.
- Integrity: as the learner shows accountability while handling tools and materials used in fabric decoration (batik)

Pertinent and Contemporary Issues (PCIs)

- Social economic issues: Safety in the class as the learner prepares the dye bath for the first colour and heat the paraffin and beeswax in a double container
- Social economic and environmental issues: as learner sources and cleans reuses and recycles cotton fabrics such as T-shirts, bedcovers

DRAFT

Suggested Assessment Rubric for Strand 2.0: Multimedia Arts (2D Art)

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
Ability to identify 3 aspects in calligraphy. - ascenders, - body - descenders	Identifies the 3 aspects in calligraphy with relevant examples.	Identifies the 3 aspects in calligraphy	Identifies the 2 aspects in calligraphy	Identifies the 1 or none of the aspects in calligraphy
Ability to illustrate text for a seasonal card using calligraphy *-ascenders,* *-body* *-descenders*	Neatly illustrates text for a seasonal card using lowercase calligraphy while considering the 3 aspects.	Illustrates text for a seasonal card using lowercase calligraphy while considering the 3 aspects.	Illustrates text for a seasonal card using lowercase calligraphy while considering 2 aspects. .	Illustrates text for a seasonal card using lowercase calligraphy while considering the 1 or none of the aspects.
Ability to design a trade mark using computer aided design - *line illustrations* - *Layout,* - *Colour,* - *Lettering*	Designs a 2 colour trademark using computer aided design with precision and emphasis on the 4 aspects	Designs a 2 colour trademark using computer aided design with emphasis on the 4 aspects	Designs a 2 colour trademark using computer aided design with emphasis on the 3 - 4 aspects	Designs a 2 colour trademark using computer aided design with emphasis on less than 3 aspects

DRAFT

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
Ability to design a poster using line and wash illustrations *-layout* *-colour* *-dominance*	Designs a poster freehand using line and wash illustrations with precision with emphasis on the 3 aspects.	Designs a poster freehand using line and wash illustrations while incorporating a scanned trademark with emphasis on the 3 aspects	Designs a poster freehand using line and wash illustrations with minor errors in incorporating a scanned trademark with emphasis on 2 aspects.	Designs a poster freehand using line and wash illustrations with major errors in incorporating a scanned trademark with emphasis on less than 2 aspects.
Ability to analyse characteristics of tie and dyed fabrics: • linear stripes method (vertical and horizontal) • marbled effect method • spiral effect method	Analyses 3 characteristics of tie and dyed fabrics with relevant examples	Analyses 3 characteristics of tie and dyed fabrics	Analyses 2 characteristics of tie and dyed fabrics	Analyses 1 characteristic of tie and dyed fabrics
Ability to tie and dye fabric to create	Tie and dyes fabrics with 3 effects precisely	Correctly Tie and dyes fabrics with the 3 effects	Tie and dyes fabrics with 2 effects and minor errors	Tie and dyes fabrics with 2-3

DRAFT

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
• *linear,* • *marbled and* • *spiral effects,*				effects with major errors
Ability to analyse characteristics of batik fabrics, • *crackled effect* • *textured effect*	Correctly analyses 2 characteristics of batik fabrics with relevant examples	Correctly analyses 2 characteristics of batik fabrics	Analyses 2 characteristic of batik fabric with minimal mistakes	Analyses 1 characteristic of batik fabric with major errors
Ability to batik fabric to create; • *crackled and* • *textured effects,*	Creatively batiks fabrics to create crackled and textured effects,	Correctly batiks fabrics to create crackled and textured effects,	Batiks fabrics with minimal crackles and textured effects	Batiks fabrics to create either crackled or textured effects,

DRAFT

STRAND 3.0: INDIGENOUS CRAFTS (3D ART)

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
3.0 Indigenous Crafts (3D Art)	**3.1 Pottery and Ceramics** Clay • Elements of 3-D Art (texture, colour, voids, solids, planes and contours). • Principles of 3- D Art (balance, contrast, movement, unity & harmony, proportion & dominance).	By the end of the sub-strand the learner should be able to; a) discuss the elements and principles of 3-D art, b) analyse properties of clay in pottery, c) prepare clay for pottery, d) model a vase using the pellet technique, e) fire the pellet vases in n kiln, f) appraise the hand-built pellet vases for feedback.	Learners are guided to: • research virtual and/actual sources and make a presentation on the elements and principles of 3-D art, • research virtual and/actual sources on pottery focusing on; practise in Kenya, properties (*plasticity, porosity, vitrification*) and preparation of clay. • source and prepare clay *(mining, drying, crushing, slaking, sieving, drying, kneading and wedging; and storage).* • watch a video on pellet technique to analyse uniformity and joining of pellets, • model a clay vase using the pellet technique with emphasis joinery of clay pellets considering elements and principles of 3D Art,	1. How can you overcome the challenges in modeling using pellet technique? 2. What is the cultural and economical value of pottery?

DRAFT

			• collaboratively use recyclable materials to build a kiln considering safety, • fire the pellet vases in the kiln observing safety precautions, • display own and others' work for peer feedback and reflection.	

Core Competencies to be developed

- Imagination and creativity: as the learner builds a vase using the pellet technique.
- Digital literacy: as the learner uses ICT tools to explore pottery made using the pellet technique
- Critical thinking and problem solving: as the learner identifies an appropriate site and builds a kiln.

Values:

- Responsibility: as the learner is guided to take good care of own and others' pottery items to avoid breakage during drying and firing and when being guided to cautiously handle fire during the firing process to avoid fire accidents.
- Patriotism: as the learner exhibits awareness of own responsibilities in the society by prudent use of clay and conserving the environment by protecting riparian land areas from over-exploitation

Pertinent and Contemporary Issues (PCIs)

- Health Education (Personal hygiene): as the learner is guided on the need to maintain high standards of personal and environmental cleanliness when working with clay.
- Citizenship (Social cohesion): as the learner interacts amicably with others as they construct the kiln.

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experience	Suggested Key Inquiry Question(s)
3.0 Indigenous Crafts (3D Art)	**3.2 Sculpture-Carving** ● *Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique)* ● *Process of carving (material preparation, designing, blocking out shape, refining, finishing)*	By the end of the sub strand the learner should be able to; a) analyse the concept of carving technique in sculpture, b) explain concept of relief sculpture, c) carve a relief sculpture for skill acquisition, d) decorate the sculpture for aesthetic, e) value own and others' relief sculptural forms.	Learners are guided to: ● study carving technique in sculpture with reference to indigenous communities in Eastern and Central Africa *(Akamba, Makonde, Bamileke of DRC)* focussing on; - characteristics - materials - process - tools - finishing techniques *(sanding, staining, varnishing)* ● source or collect materials from the environment responsibly ● prepare the material for carving by sizing into desired shape ● design and carve a relief sculpture inspired by cultural	How are the principles of 3D art portrayed in sculpture?

DRAFT

			awareness following correct process, ● decorate the sculpture using appropriate technique, ● communicate with clarity as they display and critique own and others artwork.	

Core Competencies to be developed

- Citizenship: as the learner analyses sculpture using carving techniques an indigenous craft with focus in Eastern and Central Africa
- Imagination and Creativity: as the learner designs and carve relief sculptures.
- Self-efficacy: as the learner demonstrates persistence, commitment, and resilience during the production of the sculptural forms, exhibits self-esteem and confidence during critique of one's own and others' art works.

Values:

- Responsibility: as the learner is encouraged to recycle and upcycle materials in order to take care of the environment.
- Patriotism: as the learner exhibits awareness of own responsibilities in the society by prudent use of materials

Pertinent and Contemporary Issues (PCIs)

- Global citizenship: learner is sensitized on appreciation of ethnic diversities when exploring relief sculptures from Eastern and Central African region.
- Socio-Economic and Environmental Issues: Waste management as the learner is encouraged to recycle and upcycle organic and inorganic waste materials from the immediate environment to make relief sculptures for environmental conservation.

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experience	Suggested Key Inquiry Question(s)
3.0 Indigenous Crafts (3D Art)	**3.3 Macramé**	By the end of the sub-strand the learner should be able to; a) describe the concept of macramé for familiarisation b) construct knots in macramé, c) create a web using macramé knots, d) make a macramé item with loose and tight webs, e) appreciate own and others' macramé artworks.	Learners are guided to: ● study the concept of macramé with focus on: - *materials* - *square and spiral knots* - *loose and tight webs* - *colour variation* - *function (decorative / functional items)* ● examine the process of constructing macramé web using knots, ● responsibly, collect and prepare cords for macramé, ● practice constructing macramé square and spiral knots, ● create loose and tight webs using square and spiral macramé knots to make bracelets,	1. How can macramé be used to make wall hangings? 2. How does choice of knots influence the appearance of macramé' item?

DRAFT

			● use square and spiral knots to construct a two-coloured ornamental wall hanging with lose and tight macramé webs ● display and give feedback to peers on their work in a just manner.	
Core Competencies to be developed ● Learning to learn: as the learner acquires new skill to make items using macramé. ● Creativity and imagination: as the learner construct a two-coloured ornamental wall hanging with lose and tight macramé webs.				
Values ● Integrity: as the learner utilizes resources sparingly and avoids conflict of interest during critique sessions. ● Respect: as the learner give feedback to peers on their work in a just manner.				
Pertinent and Contemporary Issues (PCIs) ● Environmental conservation - as the learner is guided on the need to conserve the environment as a source of art materials for macramé.				

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experience	Suggested Key Inquiry Question(s)
3.0 Indigenous Crafts (3D Art)	**3.4 Jewellery and Ornamentation** <u>*Concept analysis*</u> ● *materials and tools* ● *techniques and processes* ● *functions*	By the end of the sub-strand the learner should be able to: a) distinguish between jewellery and ornamentation, b) make a jewellery using recyclable materials, c) Appreciate own and others' mixed media artworks.	Learners are guided to: • explore virtual and/or actual sources to analyse jewellery and ornamentation with reference to indigenous communities in Africa. • deduce the difference between jewellery and ornamentation, • explore the environment, collect and prepare materials, while observing hygiene and safety precautions, • craft a jewellery such as (necklace with a pendant, an earring and a suncatcher) using recycled materials inspired by African styles while observing the following; - Elements *(colour, shape) and* Principles *(Balance, dominance, rhythm and movement)* - Process *(Preparing materials, carving/shaping the material, stringing, Finishing)* .	1. How does jewellery and ornamentation contribute to environmental conservation? 2. How can the immediate environment provide inspiration for jewellery and ornamentation?

DRAFT

			• appreciate others' diverse opinions and value human dignity during display and critique.	

Core Competencies to be developed

- Critical thinking and problem solving: as the learner explores the environment, collects and prepares materials for leatherwork and jewellery while producing various functional and decorative items.
- Communication as the learner;
  - seeks information and offers support while sourcing, preparing, using materials and sharing what they have learnt with others.
  - pays attention to the person speaking, takes turns in conversation during critique of own and others' Mixed Media artworks.
- Collaboration: as the learner amicably works together with peers, appreciates efforts of others while sourcing materials for leatherwork and jewellery.

Values:

Respect: as the learner appreciates diverse opinions and values human dignity during critique sessions.

Pertinent and Contemporary Issues (PCIs)

- Health promotion issues: as the learner is sensitized on the need to consider hygiene when collecting and cleaning found *objects*
- Social economic and environmental issues: as the learner observes safety measures when using sharp tools used in leatherwork and jewellery.

DRAFT

Strand	Sub-Strand	Specific Learning Outcomes	Suggested Learning Experience	Suggested Key Inquiry Question(s)
3.0 Indigenous Crafts (3D Art)	**3.5 Art Appreciation**	By the end of the sub-strand the learner should be able to: a) analyze legal issues in production and marketing of artwork, b) formulate strategies of marketing artworks online, c) appreciate strategies of online marketing of artworks.	Learners are guided to: • actively participate in research and discussion on legal issues with regard to: - *production of artwork (quality and safety of materials used)* - *marketing of artworks (misleading information, counterfeit)* • use digital devices to conduct research and prepare slides on; *- the importance of marketing artworks online,* *- ways of marketing online, (organizing virtual art exhibition in social media forums, listing costed artworks in online marketplaces),* *- advantages and disadvantages of online marketing)* • respect others' opinions as they present and discuss the slides in class.	1. Why is it important for practicing artists to know legal issues affecting the production of artwork? 2. How can one uphold integrity when marketing artworks?

DRAFT

Core Competencies to be developed ● Citizenship: as the learner actively participates in research and discussion on legal issues ● Digital literacy: as the learner uses digital devices to conduct research and prepare slides on the importance of marketing artworks online ● Self-efficacy: as the learner presents and discusses the legal issues in class.
Values: ● Respect: as the learner appreciates others' opinions as they present and discuss the slides in class. ● Unity: as the learner collaborates with peers as they present and discuss the slides in class.
Pertinent and Contemporary Issues (PCIs) ● Citizenship Education: as the learner appreciates the need to uphold integrity when creating and marketing artworks. ● Financial literacy**:** as the leaner formulates strategies of marketing artworks online

DRAFT

Suggested Assessment Rubric for Strand 3: Indigenous Crafts (3 D Art)

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
Ability to analyse properties of clay in pottery, *(plasticity, porosity, vitrification)*	Analyzes the 3 properties of clay in pottery, and includes illustrations	Analyses the 3 properties of clay in pottery,	Analyzes the 2 properties of clay in pottery,	Analyzes the 1 property of clay in pottery, .
Ability to prepare clay for pottery *(sourcing clay, drying, crushing, slaking, sieving, drying, kneading and wedging; and storage)*	Prepares clay following the 1-4 stages and	Prepares clay following the 8 stages	Prepares clay following the 5-7 stages	Prepares clay following the 1-4 stages
Ability to make a modelled vase using the pellet technique	Models vase creatively.	Models a vase using pellets of even size and neat joining.	Models a vase using pellets of even/and of size and neat/untidy joining	models vase with mostly -uneven pellets. -untidy joining
Ability to fire the pellet vases in the kiln	Fires the pellet vase evenly in the kiln.	Fires the pellet vases w in the kiln.	Fires the pellet vases in the kiln with some parts unevenly fired.	Fires the pellet vases in the kiln with defects; uneven firing, broken parts and cracks.
Ability to examine the concept of relief sculpture for inspiration, • *subject matter*	Comprehensively analyses the 3 aspects of relief	Analyses the 3 aspects of relief sculptures.	With difficulty analyzes any 2 aspects of relief sculptures.	With prompts analyzes any 1 or no aspect of relief sculpture.

DRAFT

Level / Indicator	Exceeds expectation	Meets expectation	Approaches expectation	Below expectation
• *Finishing techniques* • *Materials and tools used*	sculpture with relevant examples.			
Ability to carve a relief sculpture for skill acquisition; • *Interpretation of subject matter* • *Sketching the design* • *Selection of appropriate soft wood* • *Preparing the wood* • *Craftsmanship*	Skilfully, carves out a relief sculpture following the correct steps, skilled craftsmanship.	Carves out a relief sculpture following the correct steps, craftsmanship.	Carves out a relief sculpture while missing out on some steps, fair craftsmanship.	Carves out a relief sculpture while missing out on most of the steps, very little attention to detail.
Ability to make a macramé item with loose and tight webs (spiral and square knots)	Creatively and neatly make a macramé item with loose and tight webs	Constructs make a macramé item with loose and tight webs	Constructs make a macramé item with with some inconsistent tension	Constructs make a macramé item with inconsistent tension with the webs
Ability to formulate strategies of marketing artworks online	Formulates strategies of marketing artworks online comprehensively	Formulates strategies of marketing artworks online	Formulates strategies of marketing artworks on-line with minor errors	Formulates strategies of marketing artworks online with major errors

DRAFT

APPENDIX: LIST OF SUGGESTED ASSESSMENT METHODS, LEARNING RESOURCES AND NON- FORMAL ACTIVITIES

Strand	Sub Strand	Suggested Learning Resources	Suggested Assessment Methods	Non-Formal Activities
1.0 Picture Making Techniques (2 D Art)	**1.1 Drawing**	Varied shades of pencils, erasers, ruler, recyclable stiff papers, drawing book, digital devices	• Exhibition/display • Portfolio assessment • Observation • Question and answer • Written tests • Projects • Self and peer assessment • Journals and Sketchbooks: • Technical skill test	• Actual/ digital Gallery and museums visits. • Community Art groups visits. • Studio visits and artists talks • Art clubs • Workshop and master classes • Art festivals
	1.2. Painting	Brushes, easel, drawing papers, water colours, water, painting brushes, recyclable tooth brushes, palettes, digital devices (camera/tablets)		
	1.3 Collage	Digital devices, recyclable papers (newspapers, magazines among others), textured materials from the environment, adhesive, suppor- stiff boards, water colours.		

DRAFT

Strand	Sub Strand	Suggested Learning Resources	Suggested Assessment Methods	Non-Formal Activities
2.0 Multi media Arts (2 D Art)	**2.1 Graphic Design**	Internet connectivity, digital devices reference materials, paper, pencils, calligraphy pens, brushes, poster colours, watercolours among others.	• Portfolio assessment • Critiques and peer reviews • Exhibition and displays • Written tests • Projects • Sketchbooks and journals • Self-assessment • Technical skills tests	• Actual/ digital Gallery and museums visits. • Community Art groups visits. • Studio visits and artists talks • Art clubs workshop and master classes • Art festivals
	2.2. Fabric Decoration: Tie and Dye	Cotton fabrics, binders/strings, spraying cans, containers, hot water dyes, fixatives (hydros and caustic soda), iron box, scissors, stitching tools.		
	2.3 Fabric Decoration: Batik	Cotton fabrics, bee and candle wax, spirit, brushes, spraying cans, containers, cold water dyes, fixatives (hydros and caustic soda), iron box, scissors, stitching tools.		

DRAFT

Strand	Sub Strand	Suggested Learning Resources	Suggested Assessment Methods	Non-Formal Activities
3.0 Indigenous Crafts (3D Art)	**3.1 Pottery and Ceramics**	Digital devices, clay, water, recyclable resources for making updraft kiln, containers, source of fire.	• Portfolio assessment • Critiques and peer reviews • Exhibition and displays • Written tests • Projects • Sketchbooks and journals • Self-assessment • Technical skills tests	• Actual/ digital Gallery and museums visits. • Community Art groups visits. • Studio visits and artists talks • Art clubs • Workshop and master classes
	3.2 Sculpture	Sketching pads, drawing tools, digital devices, soft woods/ stones, carving tools (gauges, chisel		
	3.3 Macrame'	Macrame' mobile app, varied coloured yarns/ threads, macrame board, scissors, comb, tape, scissor, pins among others.
